

Treasure the memories for years to come

COMMEMORATIVE SCHOOL PORTRAIT PRESENTATIONS

Who ever would have thought the years would go by so fast? It seems like just yesterday you were helping them on the school bus for kindergarten, taking them to sports practice or their first dance. As they move toward graduation, it's the perfect time to collect and preserve their achievement.

Working with our professionally framed and matted displays, you can create a stunning Portrait Presentation of their formal graduation

photo or from the annual school photos you've collected over the years. For younger children, you can build and display the Portrait Presentation year by year. It makes a perfect gift for family members, godparents and all those who've been part of your child's life.

Information on sizes and options is included on the back of this sheet along with our contact information. Act now to create memories you'll treasure for life.
